

## **10 Personal Learning Plan – Social Living and Responsibility: Volunteering**

9 May 2014

Working in groups of 4 or 5 complete the following items. Group must nominate a scribe who writes out the necessary items from these tasks. The group response sheet is to be submitted to the teacher at the end of the lesson. All group members' names are to be listed on the lower front right corner of the response sheet.

1. List 15 things that are accomplished in our society by volunteers. (fluency)
2. Look at your list and classify each item as effective or ineffective – giving a brief statement as to why that is so. (flexibility)
3. List 10 ways that is volunteering like (select one) – phone, mug, clock, book. (originality)
4. Some government information suggests that volunteering helps to build a sense of local community and gives volunteers a greater sense of personal worth. What are some more benefits to volunteering that you can list? (elaboration)
5. Why does volunteering appeal to some but not to others? (complexity)
6. How does volunteering make our community a better place? (curiosity)
7. Imagine that everyone in our society volunteered 4 hours per week, what could we do with all of that volunteer energy and labour? (imagination)
8. How could you volunteer 2 hours per week - even while being a student (risk taking)?
