

## Learner and Teacher Agency

### Discussion Plan: Science and Religion

1. What is Science?
2. How is Science different from technology?
3. Should Science be regarded more as a theory or as a body of knowledge?
4. What is religion?
5. Why do people believe?
6. Why do people believe in God?
7. Can one believe in God and not attend church?
8. Can one believe in Science without understanding it?
9. Can one believe in Science and God at the same time?
10. Can Science be considered in isolation from its religious impact? Its ethical impact?  
Its social impact?
11. Is Science the new 'God'?
12. What is the difference between knowledge and belief? Is one more valid than the other?
